KISANDU WETHMAL

SOFTWARE ENGINEERING (APPLIED AI) UNDERGRADUATE

Portpolio - kisanduwethmal.me | Github - Wethmal | LinkedIn - Kisandu Wethmal | Kandana, Sri lanka

PROFILE

Innovative Software Engineering & Applied AI Undergraduate with hands-on experience building scalable web and mobile ecosystems. Proficient in Full-Stack development (React, Node.js, Spring Boot, PHP) and specialized in integrating Machine Learning models into real-world applications. Proven track record of architecting end-to-end solutions—from RESTful microservices and MySQL databases to AI-powered predictive systems and Computer Vision tools. Passionate about leveraging ML and Data Science to build smarter, more efficient SaaS products and automated software solutions. A collaborative Agile team player dedicated to writing clean, maintainable code that solves complex problems.

SKILLS

- **Programming Languages:** Python, Java, C#, JavaScript, HTML, SQL,, PHP
- **Web Technologies:** React.js, Node.js, Spring Boot
- **Mobile Technologies**: React Native
- **Databases**: MySQL, MS SQL, PostgreSQL, Firebase, MongoDB
- **UI Design** – Figma
- **Tools**: Git, Postman, Visual Studio, Visual Studio Code, IntelliJ IDEA, Android Studio
- **Soft & Transferable Skills:** Problem solving, Task & priority management, Teamwork & collaboration, Communication, Research & learning ability

EDUCATION

BSc (Hons) in Software Engineering — 2023 - Present
School of Computing | Coventry University London
Current GPA : 3.82 / 4.00

BSc (Hons) in Health Information and Communication Technology — 2022 - On Hold
School of Computing| GWUIM| University of Kelaniya
Year 1 GPA: 3.45 / 4.00

Advanced Diploma in Software Engineering — 2022 - 2024
School of Computing | National Institute Of Business Management
GPA: 3.64 / 4.00

Assured Diploma in Information Technology — 2020 - 2021
School of Computing | Esoft Metro Campus
GPA: 3.50 / 4.00

PROJECTS

Elite Motors- Car Sales Management System With Customer WebSite
Java Spring Boot - React JS - PostgreSQL

Statok - Personal Finance Management System
SQLite — Oracle Database — PL/SQL — SQL — PHP —HTML— CSS

Pizza Mania - Android Mobile Application
Android Studio (Java) — SQLite — Maps API — Firebase — REST APIs

SafeRoute AI -Accident Detection/SOS / Navigation Mobile App
React Native - FireBase - Weather Api - Googlemap Api

Vertix - Desktop ERP System
C# - .NET - Crystal Reports - Microsoft SQL

WORK EXPERIENCE

Software Engineer (Internship)
Ministry Of Digital Economy
2026- PRESENT

- Full-Stack & AI Development: Built scalable applications using React and Spring Boot, integrating AI-driven automation to optimize government digital services.Developed communication, mentoring, and problem-solving skills, transferable to software development roles.
- Systems Architecture: Developed secure RESTful APIs and MySQL databases to support mission-critical ICT infrastructure for public sector use.

ICT Teacher
Self-Employed
2023 - 2025

- Provided ICT theory and programming lessons to school students, creating personalized exercises and mini-projects.
- Developed communication, mentoring, and problem-solving skills, transferable to software development roles.

INTERESTS

- Software Engineering & Cloud Computing
- Full-Stack Web & Mobile Development
- Artificial Intelligence & Machine Learning (Applied AI)
- Computer Vision & Predictive Analytics
- UI/UX Design & Human-Computer Interaction
- SaaS Product Development & Entrepreneurship
- Database Architecture & Secure API Design
